POLYMER, COSMETIC COMPOSITION FOR HAIR, COSMETIC COMPOSITION AND FOAMY AEROSOL COSMETIC COMPOSITION

Abstract:

Abstract of JP2002097269

PROBLEM TO BE SOLVED: To provide a water-soluble polymer, cosmetic composition for the hair, cosmetic composition and foamy aerosol cosmetic composition, having no stiffness while keeping an excellent set-retention of haircut and having a natural and soft texture. SOLUTION: The polymer having a repeating unit of formula (1) and formula (2), and further such as (3) and (4), and the composition for treatment of hair, cosmetic composition, and foamy aerosol cosmetic composition, containing the same polymer in a molecule, are provided.
